## Profile

---

Aspiring Full-Stack Developer passionate about building scalable, responsive web applications using modern technologies. Strong front-end and back-end development foundation, with hands-on experience using React, Java, and MySQL. Eager to contribute to a dynamic team and grow in a fast-paced startup environment.

## Education

---

2020 – 2023 Jalgaon, India	<b>Bachelor Of Vocation [B Voc] Software Development</b> <i>KCE Society's College Of Engineering and Management</i> Completed a Bachelor's Degree in 2023, with a <b>CGPA of 7.93</b> .
2017 – 2020 Raver, India	<b>Higher Secondary &amp; Secondary Education</b> I completed my HSC in 2020 with a score of 69.69% and my SSC in 2018 with a score of 80%.

## Skills

---

**Frontend** (HTML, CSS, JavaScript, React, Bootstrap) | **Backend** (Java, Spring Boot, Node.js, Express.js, PHP (basic)) | **Database** (MySQL, MongoDB) | **Tools & Platforms** (Git, VS Code, Chrome DevTools, Postman, JIRA) | **Other** (Responsive Web Design, UI/UX Design)

## Projects

---

### Weather App

*Node.js, Express, JavaScript, HTML/CSS, OpenWeather A*

- Built a full-stack weather application to fetch and display real-time weather data for user-searched cities.
- Developed a secure Express backend to proxy API requests and protect the API key.
- Designed a responsive frontend with user-friendly error handling and clean UI.
- Deployed the application on Render for public access

### Quiz App

- Built a full-stack MCQ-style Quiz Application using React.js (Frontend), Java (Backend), and MySQL (Database).
- Integrated features like a timer, score tracking, question navigation, and real-time result display.
- Designed and implemented Admin Panel for question management (CRUD operations).
- Ensured seamless interaction between frontend and backend via REST APIs using Spring Boot.
- Followed responsive design principles and maintained code modularity and clean architecture.

### Personal Portfolio Website

- Developed a personal portfolio website using **HTML5, CSS3, JavaScript, Bootstrap**, and **React.js**.
- Showcases technical skills, completed projects, resume, and includes a working **contact form**.
- Implemented a **modern, responsive, and accessible UI** to ensure a seamless experience across devices.
- Deployed the website using **GitHub Pages / Vercel / Netlify** for easy accessibility to recruiters and clients.
- Focused on **performance optimization**, code modularity, and clean design principles.

## Certificates

---

### Full Stack Developer with AI – Maha Mission Education and Career Council

- MERN stack, Git/GitHub, Python/Java, AI tools (ChatGPT, Gemini, Copilot)

### Cyber Security – SkillsFactory Learning Pvt Ltd.

- Basics of Wireshark, Nmap, and Metasploit; awareness of cyber threats and secure configurations.

## Internships & Trainings

---

### Internships & Trainings

*(as part of degree curriculum)*

- Technical Support Engineer – Troubleshooting hardware/software issues
- Junior Software Developer – Basic app development, debugging
- Test Engineer – Test case design, bug tracking (JIRA)
- QA Engineer – Selenium/TestNG, Postman API testing
- Software Engineer – SDLC phases, DB integration
- UI/UX Developer – Responsive UI design, wireframes

## Soft Skills

---

Problem-solving | Communication | Teamwork | Attention to Detail

## Operating Systems

---

- Windows 11, Linux

## Languages

---

English — C1 | Marathi — C2 | Hindi — C2

## Interests

---

— Web Development, UI/UX Design, MERN Stack Development, Tech Blogging, Open Source Contribution
